

Job Description Consultant

Job Title / Consultant / researching online political influence campaigns

Location / London / work can be done remotely

Contract Length / Short-term consultancy contract / initial one month contract; minimum 40% FTE

Start Date / Before November 30th 2019

Salary / £125 per day / plus travel expenses where required for project meetings in London

About Moonshot CVE

Moonshot CVE is a London-based social enterprise specialising in countering violent extremism (CVE), misinformation, and other public safety issues. We use data-proven techniques to respond to violent extremism effectively.

About the role

We are looking for motivated, creative, and analytically driven researchers to support the delivery of a project researching online political influence campaigns. The role will include the following responsibilities:

- Open source research into online political influence campaigns and digital technologies.
- Supporting the development of a literature review.
- Stakeholder mapping and creation of contact databases.
- Coordination of research interviews including development of discussion guides and surveys.
- Event management, including coordination of venue hire, invitations, and associated logistics.

The consultant will primarily work remotely, with periodic meetings at Moonshot CVE's offices/other locations in London as required. This is a short-term consultancy for an initial period of one month, with the possibility of extension for up to six months.

Requirements

- Experience in open source research.
- Experience in data analysis and understanding of tools.
- Proven knowledge of political influence campaigns and their techniques.
- Proven track record providing administrative and logistical support.
- Detail oriented and responsible.

Desirable

- Proficiency in Russian or Mandarin; other languages also valuable.
- Relevant academic background to postgraduate level, including Master's or Doctoral.
