

# Job Description

## Tableau Consultant

**Job Title / Tableau Consultant**

**Location / Remote / European/North American timezones**

**Contract Length / 1 month full time / with opportunities for ongoing part-time work**

**Start Date / ASAP**

**Salary / Commensurate with experience and portfolio**

### About the role

Moonshot is seeking a Tableau consultant to provide a short-term boost to a cluster of high-consequence projects. The ideal consultant will have ninja-level skills in Desktop, including cloud data integration and modelling, data visualization and dashboard design.

Tableau certification is helpful but not required - your portfolio is the key to your success.

Success in the short term could lead to longer-term/retained consultancy.

### Requirements

- Demonstrated mastery of all things Tableau Desktop:
  - ▷ advanced calcs, filters, actions, sets and parameters
  - ▷ visual design, dashboard design, and internal navigation
  - ▷ optimizing workbooks and data connections
  - ▷ troubleshooting and problem-solving common and exotic Tableau hijinks
- Experience with large-scale data blending and cloud connections in Tableau.
- Experience working with project, product and data teams to deliver their vision in Tableau.
- A knack for teaching and mentoring people in Tableau basics and best practices.

### About Moonshot CVE

Moonshot CVE is a social enterprise which specialises in disrupting and reducing online harms across the globe. We currently operate in more than 28 countries across different forms of violent extremism, disinformation, and other public safety issues, such as gender-based violence. We use data-proven techniques to ensure our clients respond effectively, and our work ranges from targeted intervention programmes, software development and digital capacity building, to leading global counter-messaging campaigns, and monitoring and evaluation.

### We do this through:

- Finding new ways to reach individuals at risk of involvement in violent extremism.
- Working across different types of violent extremist ideologies.
- Collaborating with partners, and working for clients including governments, NGOs and private sector organisations from across the globe.
- Building a multifaceted team with backgrounds in a diverse range of professional and academic backgrounds, including policing, communications, psychology, data science and software engineering.
- Investing in research and development of new technologies and methodologies to counter extremism.
